Hobgoblin Suppliers

Dear Sir/Madam,

Last week, our school received information about your products. We should like to inquire why a children's school should be sent your poster.

First, as there are no witches or wizards in the school, you have wasted time, money and effort by sending us unwanted materials.

Next, you should do your homework (just as we do), so that you send your information to the correct place in future.

Finally, the colour of your poster is not appealing to humans. It may be fine for witches and wizards, but!

Please do not allow this to happen again.

Yours faithfully,

Ms Head
